

REMARKS/ARGUMENTS

The specification has been amended to correct a typographical error. The claims have been amended to eliminate multiple dependencies and to place the claims in a format consistent with U.S. patent practice. Claim 24 was published incomplete in the international application; the last two lines after "tumors, in" were omitted inadvertently during publication by WIPO. These two lines are now shown in the claim to make the record complete. The text of the last two lines has been deleted herein as an amendment to remove the reference to the material described as "in particular." No new matter has been added by way of these specification and claim amendments. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,

Xavier Rillai, Reg. No. 39,799
